We also recruit Software Developers, Web Developers, DBA's, Testers, Trainers, Technical Authors and IT Sales professionals.

Our speed and accuracy of response is achieved by utilising the latest recruitment techniques, specialist recruitment software and our consultants' extensive knowledge of the IT & Datacoms market place. We endeavour to only submit relevant CV's for each position and to provide a viable recruitment solution for all our clients.

We can also offer a Managed Agency Solution where we handle the recruitment process on your behalf, managing secondary supplier agencies and taking over much of the workload. This can produce significant cost savings and allows your hiring managers, Human Resources department and back office staff to focus on their own priorities. Please contact us or see our website for more details.
